- Resolve conflicts
- Teamwork
- Critical thinking

LANGUAGE

English – B1 (Intermediate)

Russian – C2 (Proficiency)

ABOUT ME

For the time being I'm developing my Pet-project- web e-commerce site (PHP/Laravel/EC6(JS)/SCSS/Bootstrap).
I'm experienced in developing in such areas as front-end (React / Redux-thunk / Redux Toolkit / ES6(JS) / HTML5 / CSS / SCSS (SASS)) and back-end (PHP / Laravel / MySQL / Bootstrap / Docker).
My English level is B1 (Intermediate).
I develop websites from scratch using a responsive layout, applications using an object-oriented programming approach.
I try to keep up with the rapidly changing requirements in the IT sector. I'm constantly improving my English, technical skills and study new technologies.
